# County Casts Near - 6,000 Vote

## Daniel, Yarborough Win In Milam Vote

Milam County voters went along with the rest of Texas Saturday in re-electing Gov. Price Daniel and Sen. Ralph Yarborough in the Democratic primary.

Countians voted 2,917 times for Daniel while Pappy O'Daniel ran a strong second with 2,207 votes. Henry Gonzales drew 451 votes and Joe Irwin 160 votes to complete the count in the four-way race for the Democratic Governor's nomination.

In the heated senate race, Yarborough polled 3,613 votes over William Blakley's 2,094. Yarborough also carried heavily in Texas.

One state race will be decided in the runoff primary August 23 when J. Edwin Smith and Robert Hamilton will seek the final nomination for Associate Justice of the Texas Supreme Court, Place No. 1. Neither man drew the most votes in county balloting.

Wilmer B. Hunt drew 1928 votes to lead the field on the county ballot, but he lost out in total state voting. Hamilton drew 1882 and Smith 1379 in the county's vote.

In other state contests, Milam County went along with the majority of state voters. County totals for lieutenant governor were: incumbent Ben Ramsey, 3380; George Nokes, 2171. Joe Greenhill drew 3197 votes to Mrs. Sarah Hughes' 2154 for Associate Justice Supreme Court Place 4. Incumbent Bill Alcorn drew 3384 votes compared to L. J. Dimmitt's 1817 for commissioner of General Land Office.

In the three-way race for commissioner of agriculture, incumbent John C. White was Milam County's choice on 2976 ballots. Tom Griffin drew 1789 and Glenn H. Kothmann drew 564. White will return to the office without a state runoff.

Eight other uncontested state races drew heavy votes for incumbents seeking re-election, according to the official Milam County election count.

## Democrats Plan County Meeting At Courthouse

The County Democratic convention will meet 8 p.m. Saturday at the district courtroom of the Milam County Courthouse, County Chairman Max McClaren announced today.

Precinct conventions were held last Saturday at the 38 county precincts. Delegates were elected to the county convention and will meet to vote on county delegates and party issues Saturday.

McClaren noted his appreciation to all election officials for their co-operation in getting in returns of the Saturday primary. He said that 90 percent of the returns were in by 9 p.m.

"I am hoping for a harmonious meeting Saturday where all interests will be considered," McClaren said.

"If the Democrats of our state are to have a strong voice in the 1960 presidential convention, our people must unite and settle their inter-party differences," he continued. "However no basic components of our Democratic system of government at any time should be violated in achieving that goal," McClaren said.

McClaren noted his appreciation to all election officials for their co-operation in getting in returns of the Saturday primary. He said that 90 percent of the returns were in by 9 p.m.

The Perry is located about 7 1/2 miles southeast of Rockdale and is approximately three quarters of a mile off the Burleson County line. It is on a 10,000 acre block which General Crude has under lease in that area. It is about one and a half miles north of the Chriesman Field in Burleson County.

Another wildcat was reported drilling in the western part of Milam County this week. It is the No. 1-A Mrs. Floyd Hargrove, being drilled by W. H. Clark, independent operator of Taylor, on a 1,100 foot permit or to the Edwards. It is located 2 miles west of Sharp.

## Forester Woodruff Dies In Fort Worth

The Herald learned this week that Forester Woodruff, 58, died in Fort Worth June 23. He had been in poor health for the past two years.

A former manager of the Texas Power & Light Company in Cameron, he was active in civic life here. He was a Deacon in the First Presbyterian Church and a member of the Masonic Lodge.

At the time of his death he was president of the F. E. Woodruff Consulting Engineer Co. in Fort Worth and an Elder in the John Knox Presbyterian Church.

Woodruff was a Navy veteran of World Wars I and II, and a native of Gordon, Nebraska.

## Balusek Death

### Termed Suicide

Justice of the Peace Paul Sakevitz has termed the death Friday night of Frank Balusek suicide, according to Sheriff Carl C. Black. Balusek, 59, was found in the attic of his home at Marak by Sheriff Black. He had two bullet wounds through the heart.

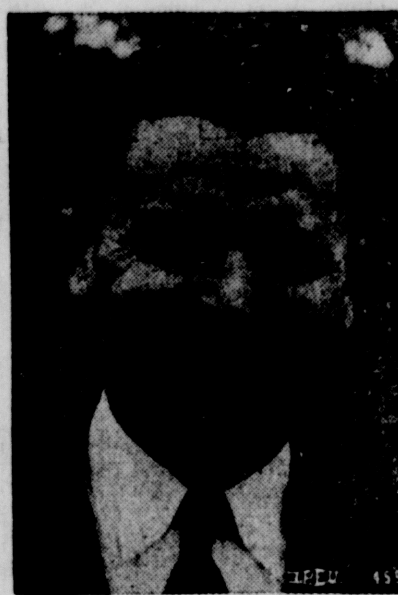

Relatives who had been visiting Balusek and his brothers, Joe and John, called Black after hearing two gun shots in the house.

Funeral services were conducted by the Rev. Raphael Gerskovitch at the Marek-Burns Funeral Home 4 p.m. Sunday. Burial was in the Marak Cemetery.

Survivors include three brothers, Joe and John Balusek of Marak, and Rudolph Balusek of Killgore.

## Humble, Wieser, Maxwell Nominated

Milam County voters turned out in a record non-presidential year election to cast a total of 5,946 votes that defeated three county office holders and carried four precinct candidates into a runoff primary August 23.

Voters nominated Don G. Humble for county judge, Wayne B. Wieser county clerk, H. B. Maxwell county superintendent in the county-wide Democratic primary Saturday and renominated Mrs. Ida Johns county treasurer over her opponent, Gertrude Batla by a 3,771 to 1,848 margin.

The Democrat nomination is tantamount to election of candidates winning the Democratic primary.

In the race for State 56th District representative, incumbent Yezak tallied a total of 5647 votes to Leon Wilson's 3457 tallies in the bi-county race. Yezak drew 2018 votes to Wilson's 1457 in Robertson County and 3629 to Wilson's even 2,000 in Milam County balloting.

### 5772 Total Vote

Humble drew 3137 votes in the county judge's race to unseat incumbent Judge Charles C. Smith. Judge Smith drew 2659 votes in the race.

Incumbent Homer Nabours lost his county clerk's post to Wieser by a margin of 347. Wieser drew 3067 votes, Nabours 2720.

Supt. Hinton Pruett was defeated 3709 to 2063 by his opponent, Maxwell.

Voting was heavy throughout the county's 38 boxes, according to Max McClaren. Total poll taxes paid before the election was 4527. A total of 279 absentee ballots were filed. McClaren said 31 incorrect ballots were taken out.

In other county races, R. H. McCasland unseated incumbent C. L. "Babe" Yount for the nomination to Commissioner, Precinct 4 by 38 votes. McCasland carried the precinct, 559 to 471.

In the Precinct 2 commissioner's race LaVert McKinney and Robert Weems carried into a runoff with 854 votes and 557 votes respectively. Wilder K. Graham was third with 454 ballots and Howard Tucker was a close fourth with 443 votes. Joe Hickman drew 251 votes in the five-man race.

In the only contested justice of peace race, incumbent Judge B. G. Rice and Gus Evans, Sr. headed for a runoff race in Justice Precinct No. 1 with 947 votes and 712 votes respectively. Gene Kirk drew 513 ballots in the three-way race.

Six other unopposed justice of the peace candidates were elected: Precinct 2, John Thweatt; Precinct 3, Wesley Woods; Precinct 4, Leonard Allen; Precinct 5, L. N. McDonald; Precinct 6, Paul Sakevitz; and Precinct 8, E. C. Noite.

In other uncontested races, U.S. Rep. Robert Poage drew 5756 votes, District Clerk Grady Allen 5814, Milam Democratic Chairman Max McClaren 5845, and County Surveyor W. F. Talafuse 5853 votes.

All 38 precincts re-elected chairmen for their precincts.

## Runoff Primary Set For Voters On August 23

Voters still have three more candidates to elect in some parts of Milam County while the whole state will go to the polls August 23 to decide the party nominee for Associate Justice of the Supreme Court, Place 1.

Max McClaren, chairman of the Milam Democratic committee, said that three races will be decided in Commissioner Precinct No. 2.

But in Commissioner Precincts 1, 3, and 4, only the Supreme Court runoff will be on the ballot.

Voters in Justice Precinct No. 1 also will name their Democratic nominee for justice. Incumbent Judge B. G. Rice will face Gus Evans, Sr. in the runoff.

In the Precinct 2 Commissioner's race, LaVert C. McKinney and Robert Weems will vie for the post. The two men finished one-two in the five-man race after July 26 voting.

McClaren said the county executive elected to hold the county runoff election during a meeting this week.

Elsewhere in the state only the names of J. Edwin Smith and Robert W. Hamilton will appear on runoff ballots for a state race. They are vying for Associate Justice of the Texas Supreme Court, Place No. 1.

McClaren noted that absentee balloting for the August 23 runoff begins Monday and will end August 19.

He pointed out that some counties will not hold a runoff election because there are no other races contested but the Supreme Court race.

## MFB Plans Queen Contest Tomorrow

A large crowd is expected for the Milam County Farm Bureau Queen contest to be held at 8 p.m. Friday at Simon-George Hall.

Competing for the county title will be Miss LaVelle Fischer of Buckholts, Miss Anna Belle Conn of Thorndale, Miss Frances Hoffman of Milano and Miss Ruth Ann Whittington, Miss Beverly Morgan, Miss Carole Ann Heitman and Miss Mary Jane Vogelsang, all of Cameron.

Last year's winner was Miss Mary Smith of San Gabriel.

Dr. Robert Tittsworth, Cameron veterinarian, reports discovery of a rabid skunk by Hubert Jistel, Ad Hall Community.

Mr. Jistel found the skunk and put him away for observation. Dr. Tittsworth said the skunk died. A lab study showed the skunk had rabies.

It could mean that the skunk possibly might have spread the disease if he had bitten any other animal before dying, according to Dr. Tittsworth.

The Near-Middle East crisis has cooled somewhat, and the World Powers are making arrangements for a "Summit" meeting.

Thus far these activities have not directly involved those of us in Milam County. But one Cameron youth is off the Lebanon port-capital city of Beirut, according to a Navy release.

An official release from the U.S. Sixth Fleet listed Bonnie L. Cole, Cameron, machinist mate first class, among the crew of the USS Saratoga, an attack aircraft carrier. He is the son of Mr. and Mrs. V. J. Cole, Rt. 3, Cameron.

He is among about 100 Texas navymen aboard ships of the Sixth Fleet in eastern Mediterranean waters. One other navyman from nearby Calvert, Peter C. Gibson, Jr., is in the same group of ships.

When some of our own boys are that close to the Mideast mixup, it brings the impact of that situation much closer to home.

We took a drive through the county recently and saw the most impressive ocean in our memory. It was an ocean of maize all around us. Milam County farmers have planted grain everywhere, even in the fork of one intersection in the southeast corner of the county.

This is one ocean we all like to see. It could mean a wave of prosperity this fall after drouth and overflow left something less than good crop years.

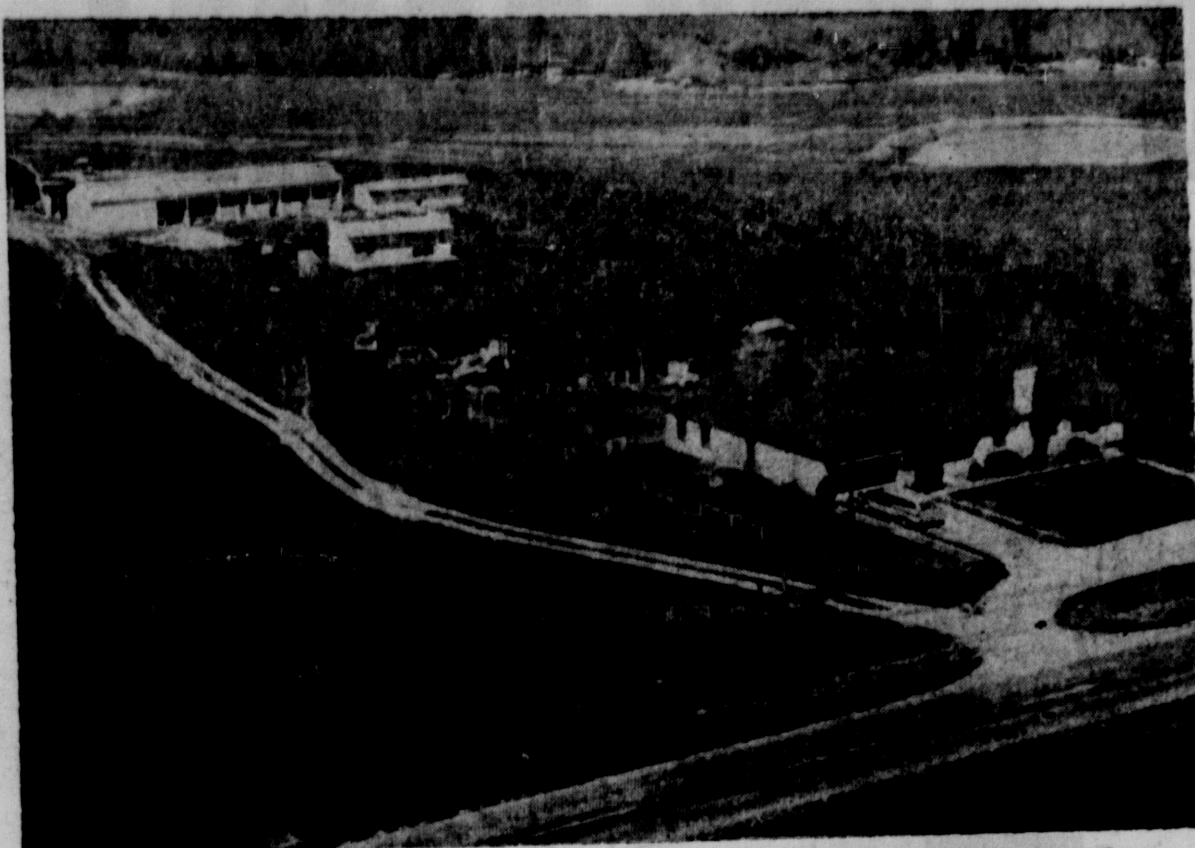

Drive around the county this weekend. You'll see a most impressive sea of grain.

## Government To Compare Cattle At Beltsville, Md.

COLLEGE STATION — Whether hybrid dairy cattle might be better producers than purebred cattle is about to be subjected to scientific scrutiny at the U. S. Department of Agriculture's Beltsville, Md., research center.

A long-range investigation recently undertaken by USDA scientists will compare purebred Brown Swiss, Ayrshire, and Holstein cows with crosses of the same breeds, according to A. M. Meekma, extension dairy husbandman. Test matings are planned so that both two-way and three-way crosses can be compared.

The crossbred and purebred cattle, descended from the same basic stock, will be compared on the basis of their milk production including butterfat content and solids not-fat production, breeding qualities, birth weight, growth of calves, and their efficiency in converting feed into milk.

Meekma says these studies should demonstrate whether the hybrid vigor that has been so effective in increasing productivity and quality in many plants and some animals can be put to practical use in improving dairy herds. Using sires from artificial breeding establishments, crossbreeding would be relatively easy to practice in the dairy industry if it should prove desirable, concludes the specialist.

## BRA Directors Reaffirm Plan To Buy Water Conservation Space

The board of directors of the Brazos River Authority voted in a recent meeting to reaffirm standing policy of buying conservation storage space built by U. S. Engineers where feasible.

Oxshier Smith, BRA finance committee chairman, met with the 24-member BRA board.

The BRA just recently opened construction on a new Waco Dam, the fourth major project in the 23-dam master plan of the BRA. The new lake is being built by

the U. S. Corps of Engineers as a flood control and conservation project, costing \$40 million.

The BRA plans to build a regional office in Waco following opening of the Waco construction project.

Smith said that an exhibit of the BRA's projects and plans, including photographs, maps and diagrams, will go on display in the Citizens National Bank during August.

A recent report on the Brazos River basin which includes Little River and tributaries noted that irrigated acreage has increased 827.7 percent in the Brazos basin during the past 17 years. The report was compiled by the U. S. Bureau of Reclamation in co-operation with the State Board of Water Engineers, state office of the Soil Conservation Service and the Corps of Army Engineers.

The report said that Brazos basin has a potential of 335,000 irrigated acres being developed. Potential in the Colorado basin is about 200,000 acres. The Colorado basin showed an increase of irrigated acreage of 311.5 percent.

The Bureau of Reclamation said there is 1,600,000 acres in Texas that could be developed by irrigation from surface waters.

J. H. Kultgen, BRA president, has said that every acre foot of conservation storage in the Brazos basin must be developed. His comment followed release of the data showing the Brazos' basin first-place development in irrigated land.

## Lester Pitches Tribe By Yanks

The Indians surprised the Yanks Thursday night in Little League action as the Indians upset the Yankees 4 to 3.

pitcher allowing only 8 hits in hurling the entire game. His catcher was Dickie Ponder.

The Indians leading hitter was Huntsman who was 2 for 3. Robert Eikenhorst continued slugging the apple for the Yankees as he and Judson Smith were 2 for 3.

Larry Bowen and Jon Zelisko hurled for the Yanks.

## TO THE VOTERS

## A Growing Year...

The enthusiasm and effort of Milam County farmers are being rewarded this year with favorable weather for their money crops—maize, corn and cotton.

And anyone raising cattle is enjoying equally favorably prices for livestock.

Only a complete break in weather conditions can curtail Milam County's expectations for her biggest year ever in maize, her biggest crop. And cotton farmers should have strong production as well.

An agricultural expert said recently that maize will supplant cotton this fall as the big money crop in Texas. Certainly this is true in Milam County.

County agricultural spokesmen anticipate a 1000-carload maize crop, meaning about \$1,750,000 in maize in the county. It could go as high as 2,000,000. If cotton does well on the acreage in cultivation, Milam County should enjoy a fall reminiscent of pre-drouth years.

Two measures make possible the crop prospects this year. First, a full measure of our farmers' will and endurance has kept them going despite drouth, overflows, insects, freezes and all other farming hazards. And secondly, weather has finally turned temperatures and moisture to satisfactory growing conditions.

One without the other would mean something less than an optimistic outlook for agricultural Milam County.

We fully believe that Milam County has completed a cycle of trial and discouragement. Milam County's faith in herself shall be rewarded this fall.

Sage Talks About, But Doesn't Solve, Middle East Situation

Dear editor:

Me and a bunch of my neighbors were out here talking about the crops yesterday and due to the fact that when it comes to crops I don't have much to talk about I changed the subject and asked them what they thought of the Middle East situation. A man ought to do what he can to be comfortable.

One of them spoke up and said he didn't know enough about it to say anything.

This strikes me as ignorant. If only the people who know what the facts are in the Middle East talked about the place, there wouldn't be anything said. Couldn't even get in most newspapers.

I don't think the people in Washington, London, Paris, Moscow or the Middle East itself are any better than the rest of us, and I'll talk about the place whenever I get ready. If people waited till they had the facts to talk, 95 per cent of the conversation in this world would be eliminated.

However, talking about the Middle East is no sign you have the solution for it, as me and Washington are well aware, and I would like to say quickly that I don't want the world looking to me for an answer. A man who can't solve the problems on his own farm is in no shape to solve any problems in the Middle East, or any other point on the compass. As a matter of fact, I can't even read a compass.

I was talking to a man in town the other day and he said the way to handle the Middle East is to let Russia take on the whole area if it's willing and all the other areas willing to be taken on, then let Russia go into the foreign aid business, and while this won't really solve the problems, it'll leave Russia busted. On the other hand, you've got to remember there are a lot of people who have joined up with Russia about like the chickens joined up with the scrooch owls. The scrooch owls kept scrooching up to the chickens on the roost and pretty soon there weren't any chickens left. Some countries have joined up with Russia about like my neighbors' pastures have joined up with my cows. Let a gap in the fence show up and the cows move in. If you're looking for a solution for the Middle East situation, don't

look at me, might as well be looking at the statesmen of the world. I'm like most people. Let's conquer space. It's easier to conquer than ourselves.

Yours faithfully,  
J. A.

## Yarrellton Oklahoma Visitor Is Houseguest Of Manns, Colburns

By Mrs. Lena Russell

Cleve McCall and nieces, Mrs. Susie Matthews and Mrs. Bay Barrett, have returned from a visit with the Dunk McCalls at Edna.

Visitors in the C. B. Leonard home last week were Mr. and Mrs. O. D. Hairgrove of Ft. Worth. Mr. and Mrs. Ralph Wharton and daughter of Houston visited Mr. and Mrs. Jesse Gibbs last week.

The Melvin Weems are vacationing in Alabama with relatives and friends.

Mrs. Hallye Byrd Webb of Oklahoma is visiting Mr. and Mrs. Jim Mann and the Herbert Colburns in Cameron.

Mr. and Mrs. C. E. Russell spent last weekend in Austin and Abilene where they attended the joint installation and reception of the Odd Fellows and Rebekah Lodges. Mrs. R. M. Yancy was elected Nobel Grand in Rebekah 195.

Mrs. J. M. Fuller is vacationing with her children at Aransas Pass. Mr. and Mrs. Bob Norman of Christiansman was a church visitor and Hal Lott of Corpus visited Mr. and Mrs. John Lott.

## Alcoa Theatre Will Star Charles Boyer

Charles Boyer will star in Alcoa Theatre's "Guests for Dinner" on Sunday, August 3, over KTBC-TV, Channel 7, at 9:30 p.m.

Written by Alec Coppel, the presentation is a strange tale of love and intrigue with a lovely woman living in the past. Also appearing with Boyer, who plays the role of Dr. Jacques Roland, will be Judith Braun.

## Capitol Report

# Texas A Powerhouse Says News Magazine

By Vern Sanford  
Texas Press Association

AUSTIN—During much of the last century Texas was called the great land frontier. Word got around. From older regions came the restless, the ambitious, the hopeful who'd heard there was plenty of room in Texas.

Today, the sod huts and free land are gone from Texas. But the frontier is regarded by economists as greater than ever—rich and promising beyond Moses Austin's boldest dreams. A recent survey by a national magazine (U. S. News & World Report) described Texas as destined to become "the new powerhouse of the United States—an industrial empire built on a storehouse of priceless natural resources."

Sounds wonderful. But Texas leaders, in both government and industry, have taken the position that favorable circumstances alone will not convert frontier to empire. Other states are angling, too, for energetic men with capital and know-how to start new factories humming.

And most states are not hampered, as Texas is, by a constitutional provision prohibiting use of tax money to advertise the state's advantages.

Despite this hindrance, the last Legislature, at Gov. Price Daniel's request, reactivated the Texas Industrial Commission to start the ball rolling. E. B. Germany of Dallas is Commission chairman.

In operation only four months, with a piggy bank budget of voluntary donations, the Commission is, nevertheless, making itself felt.

Its showpiece is a 68-page, two-color brochure called "A Plan of Action to Win New Industry for Your Community." This do-it-yourself manual was mailed to every Chamber of Commerce, mayor, county judge, industrial foundation and legislator in Texas.

Letters of commendation and requests for extra copies have "poured in," according to Bob Bray, member of the governor's staff assigned to the Commission. Said a letter from the Huntsville and Walker County C of C, "Never have I seen any publication so full of excellent guidance material for communities."

With the letter came a contribution to carry on the Commission's work.

Next big goal is passage in November of a constitutional amendment to remove the legal shackles on financing. "Failure of the amendment," said Bray, "will handcuff the Commission. Our big job now is selling Texans on the need to sell Texas, both industry-wise and tourist-wise."

With funds and staff, the Commission will be ready to go ahead on an extensive effort—already mapped out—for research, information, advertisements, films, aid to local organizations, etc.

Says Germany, "Disastrous droughts, the alarming loss of rural population and the stark realization that the state no longer can depend on its oil revenue, all emphasize the need for developing our industrial resources."

Schools "Bust Out"

Some seam-splitting from Texas' expanding population was reflected in the reports of Texas Education Agency survey teams on conditions in the state's public schools.

As a result of the reports to the State Commission on Accreditation, nine schools were removed from the accredited list, and accreditation was withheld from six others. Fifty-one were warned they face loss of accreditation unless they improve standards.

Most of the schools' troubles seemed to stem from pupil populations and needs that outran community leadership and financing. Samples from the unfavorable reports: not enough textbooks, few or no library books, no laboratory facilities for science courses, unsanitary or outmoded facilities, use of condemned or "miserably overcrowded" buildings, teachers instructing courses in which they had had no college study.

Actually, the number of schools having trouble meeting standards was only about 3.5 percent if the total—or 66 out of Texas' approximately 1,800 school districts.

New Roads Ahead

Better driving days are seen ahead as the State Highway Department unveiled its plans for 1959-60 interstate highway building.

A \$260,000,000 program has been authorized to add 567 miles of controlled-access highways to Texas' portion of the national network.

Of this, \$210,495,300 is earmarked for construction, \$16,272,100 for right-of-way buying and an additional \$33,222,500 for advance right-of-way buying.

Eventually, Texas is to have 3,033 miles of the interstate system within its borders.

Fresh Start

National Bankers Life Ins. Co. of Dallas may continue in business, but without the control of its founder and majority stockholder, Pierce Brooks.

This was the effect of a ruling by State Insurance Commissioner William A. Harrison after a three-day hearing on NABLICO's affairs. State officials conceded the solvency of the company, but objected to certain investments and management practices.

Result: Brooks' controlling interest has been signed over to a trustee. Brooks said he will sell the stock as soon as the transaction can be arranged.

THOUGHT FOR TODAY

Today's Text: Behold, what manner of love the Father hath bestowed upon us, that we should be called the sons of God: therefore the world knoweth us not, because it knew him not. —Verse 1

Our Father, never shall we cease to thank thee for the great love wherewith thou hast loved us.

First evidences of algebra are found in Egyptian relics of about 1700 B.C.

### McGoldrick Children Observe Birthdays At Combined Party

Mr. and Mrs. Jimmy McGoldrick were hosts to a Hobo Party honoring their children's birthday last week. Honorees were Ricky Lane, 8, Donna Sue, 6, and Sharon Lynn, 2.

About 20 guests enjoyed games around a hobo camp and campfire in the McGoldrick back yard. Following the theme, refreshments were bar-b-que weiners with all the trimmings and three birthday cakes.

Each guest received favors of hobo pipes, candy and money bubble gum.

Out of town guests were Mr. and Mrs. E. L. Rutherford, grandparents from Rockdale, Pat, Gloria, and Helen Dittmar, Mr. and Mrs. Ernest Rutherford, Jr., and Jeffrey, and Mr. and Mrs. Louis Absnider and Monica, of Austin; Mrs. J. E. Sonntag, Dolores and Mary of Rockdale.

### Methodist Women To Hear Missionary

Miss Mary Sue Brown of Waco will be the guest speaker for the Methodist WSCS regular business meeting Monday at 4 p.m.

Miss Brown, who has spent her adult life as a foreign missionary in Africa and South America, will speak on "My Life In The March of Missions."

Mrs. Horace Knight, program chairman, announced that the meeting would be held at the church.

#### INTRODUCING

Robert Sherwood McClaren, born Tuesday morning in Bryan to Mr. and Mrs. S. W. McClaren, III. He weighed 6 pounds, 12 ounces.

Grandparents are Mr. and Mrs. Drayton McLane of Cameron and Mr. and Mrs. S. W. McClaren, Jr. of Marlow. Mrs. S. W. McClaren, Sr. of Marlow is the only great-grandmother.

### Note Of Appreciation

The wholehearted support and fine vote in my behalf during the past primary election are genuinely appreciated. I extend my sincere appreciation to each and every friend in Milam County for their support though I was defeated.

It has been my pleasure to serve Milam County in the county clerk's position. Your interest and support have always made service to Milam County a reward in itself.

Sincerely

MRS. JOE LEE VYBIRAL

## Miss Leonard Weds Joe Lee Vybiral

Baskets of white gladiolus decorated St. Monica Catholic Church for the wedding of Miss Carroll Ann Leonard to Joe Lee Vybiral at 9 a.m. Saturday.

The bride's parents are Mrs. T. C. Buffington, Cameron, and W. K. Leonard, Sr. of Galveston. Parents of the groom are Mr. and Mrs. A. E. Vybiral, Sr. of Cameron.

The Rev. George Duda officiated at the double ring ceremony. Nuptial music was furnished by Catherine Mikula, organist, and Mrs. Robert Matthews, Jr., soloist.

Given in marriage by her father, the bride wore an original gown of imported nylon tulle and chantilly lace. The sculptured bodice was designed with a deep square neck and short sleeves. A wide panel of lace embraced the bouffant skirt sweeping into a cathedral train.

Her finger-tip veil of pure silk imported English illusion fell from a chantilly lace cap outlined in tiny seed pearls. She carried an orchid surrounded by feathered carnations and lily of the valley. Miss Evelyn Vybiral was maid of honor and bridesmaids were Mrs. W. K. Leonard, Jr., and Miss Lydia Krenek. Attendants were dressed identically in gowns of white sparkle net with matching gloves. They wore white circular hats trimmed with a satin bow and carried cascades of white carnations sprinkled with diamond dust.

Pam Mitchan of Cameron was flower girl and Michael Kincer of Austin was ring bearer.

W. K. Leonard, Jr. served as best man and groomsmen were Bobby Taylor of Dallas and Warren Rinn of Cameron. Wallace Jez

of Temple and Eugene Mitchan of Cameron were ushers.

Gladiolus and carnations decorated Simon-George Memorial Hall for the reception immediately following the ceremony.

Miss Elwanda Holland served the three tiered wedding cake and Miss Nell Gooch poured. Miss Barbara Kotrola was in charge of the bride's book.

Others in the house party were Mrs. Wallace Jez and Mrs. Bobby Rutherford.

Following a short wedding trip the couple will make their home in Grand Prairie.

The bride is a 1958 graduate of Yoe High School and Mr. Vybiral is a 1953 Yoe High graduate. He is employed with the Texas Air National Guard at the Naval Air Station, Dallas.

### Coke Party Honors

#### Martha Ann Collins

Pink roses, wedding bells and English ivy decorated the John Henderson home Friday for a coke party and surprise linen shower honoring Miss Martha Ann Collins, bride-elect of Ronald Hudson.

Hostesses were Mrs. Tommy Uhr and Miss Jane Henderson.

The guest list included Mrs. Albert Collins, mother of the bride-elect, and Mrs. C. W. Hudson, mother of the prospective groom.

Business Leadership**

**Wiese Lumber Co. Glass, The Florist Says It Best**  
**Serves Up Array When You Say It With Flowers**  
**Of Sales, Service**

Wiese Lumber Co. proudly serves Milam Countians' building and repair needs, regardless of the job.

Owner Buddy Wiese, veteran lumberman and builder, backs up his company's policy of complete lumber sales and service with a life-long background of building experience and lumber yard management.

And his services include a wide range of materials and work in the lumber business.

Wiese's staff of four is available for immediate delivery of materials and estimates on building jobs regardless of size.

#### Complete Supplies

Wiese Lumber Co. also offers a complete array of paints, roofing, nails, bathroom fixtures, plumbing supplies to bring building know how and quality building materials together.

His paint line includes Kem-Tone and Kem-Glo selections for any requirement of decorating or painting inside or outside the home or farm.

He also features Gold Bond ceiling tile and popular shutters for fashionable decor.

"We will make estimates on any type of job whether for a repair job or a new house," Wiese says.

"And when a customer orders some materials for immediate use, we give him immediate delivery," he points out.

Wiese Lumber Co. is open five days a week from 7:30 a.m. to 5 p.m. Monday through Friday and open until noon on Saturdays.

Wiese's building supplies include bricks and roofing of any kind and inside paneling for dens and family TV rooms.

#### Plans Drawn

"We can draw up plans and specifications for buildings of any type, including houses, farm structures and large types of construction," he emphasizes.

"Your business is more than appreciated. It is taken care of competently and correctly at Wiese Lumber Co. Give us a ring today," he concludes.

When you say it with flowers in Cameron and Rosebud, Glass the Florist says it best.

After 27 years in the wholesale and retail business, there is little doubt about the statement above. In fact two generations of Glass, the Florists, make floral service and selection a pleasure and delight regardless of the occasion.

Co-owners Mr. and Mrs. Lester Glass and son, Donald Glass, present an array of flowers for that special occasion that makes a remembrance from Glass, the Florist something really special.

Donald Glass points out that potted plants, sprays, corsages, bouquets, cut flowers and any other floral requirement are available in a spectrum of selections.

#### Greenhouse Fresh

He emphasizes that flowers by Glass are greenhouse fresh too their customers. Glass, The Florist grows most of their flowers in

their own local greenhouses.

Freshly picked, the flowers are beautifully arranged by the skilled floral decorators at Glass the Florist. And they are delivered in fast, efficient manner by one of five trucks working in Cameron and a truck in Rosebud, he points out.

"We consider the floral occasion in recommending types of flowers and their arrangement to our customers. We strive for the personal touch that flowers convey when they are given as a gift or special remembrance."

Glass's floral arrangements for funerals are done with dignity and grace befitting the need, Glass says. And equal care is devoted to flower and scenic arrangements for weddings and parties.

"Ask about our floral service for weddings," Glass recommends. "We assure you that you will receive the recommendations that

27 years of experience has proven will give a really beautiful wedding."

#### Wide Selection

Name the flower and Glass has it. Hydrangeas, mums, roses, gladioli, carnations, glads, to name only a few are available most of the year or in season for Glass customers.

Glass, the Florist is also a member of Florist Telegraph Delivery Association, a world-wide group of outstanding florists that can send flowers to any point of the world by telegraph order.

"We try not to overlook any service that flowers properly grown, arranged and delivered should give," he continues. "There is something special about getting a gift of flowers and continuous attention by the florist makes receiving flowers an occasion to remember."

**Schillers Has One Stop Service**  
**In Up - To - Date Auto Dept.**

Schiller Motors, Milam County's largest Chrysler Corporation auto dealer, has a wide selection of services that compliment an up-to-date auto agency.

Located at the intersection US 77 - US 190 and SH 36, Schiller Motors features a one-stop service at the agency auto department and at Schiller's Humble Service Station.

The aggressive Dodge-Plymouth dealership is ably managed by Partners Milton J. Schiller and Jerry B. Schiller.

"Our one-stop service includes a complete wash, lubrication and polish service plus minor repair or a major overhaul if the motorist's car needs it," Milton Schiller says.

#### Staff of Sixteen

Schiller Motors employs a staff of 16 competent people to make Schiller Motors and Service Station truly a one-stop auto center. Besides selling 1958 Plymouths and Dodge cars and trucks

Schillers are adding a wide selection of used cars to their sales department on a lot across from the agency on SH 36.

"We believe in giving Milam County motorists the complete automotive center -- one where he can find a new car or truck or buy an excellent used car. Then he can be sure that experts will care for his vehicle long after he purchases it," Schiller says.

Schiller's service department is under the active management of Joe K. Kovar, who has 28 years of all-round mechanical know how. He has built a reputation as probably one of the best mechanics in the county, Schiller points out.

Another highly skilled auto man, James Supple, manages the paint and body department. He takes great pride in his workmanship and knows the fine points of paint and body work. He has gained valuable experience on the assembly line of one of the nation's major auto builders.

Supple has had 42 years in auto paint and body work experience.

#### Top Name Brands

Name brands too are among the outstanding features of Schiller Motors and Service Station. The service station handles quality Humble petroleum products and the auto agency is distributor for U. S. Royal tires.

In addition, the service department provides a complete auto air conditioning service as well as a wide variety of repair services.

The Schillers founded their auto agency in 1946. In 1950 they constructed their agency and service station on SH 36 - US 77. It was one of the first major building projects in Cameron following World War II.

"We believe we have a wide variety of excellent automotive services and products that will make driving a pleasure for Cameron motorists. We invite your business, and we will do our utmost to serve you well," Schiller concludes.

**Cameron Man Represents USA In Jamaica Meet**

Dr. O. H. (Hugh) Graham has been chosen by the Society of Entomologist of the U. S. Department of Agriculture to represent them and our nation at a conclave of entomologists of the British Empire now meeting in the Commonwealth of Jamaica, with representatives from Central and South American countries and other tropical countries of the world.

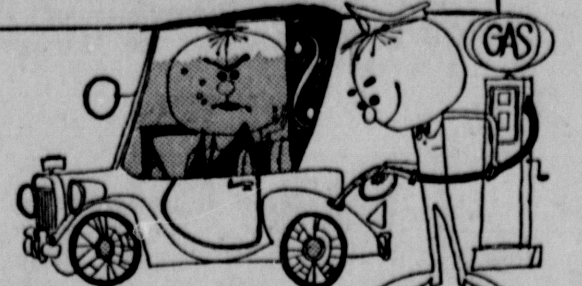

Graham is the son of Judge and Mrs. O. D. Graham of Campton.

He writes that they are very formal in all their meetings and procedures. A reception by His Excellency, The Governor and Lady Blackburn opened the fourth Inter-American meeting at Kings House in Jamaica.

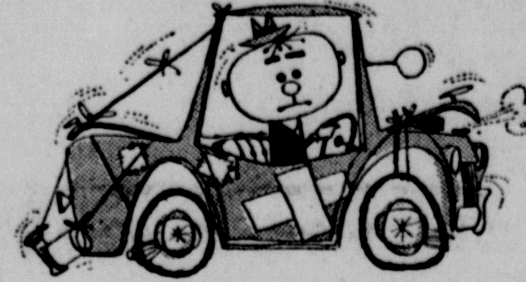

Graham was trained in Milam County public schools, A&M College of Texas, the Universities of South Carolina and Georgia, the University of Australia at Sidney and the University of Puerto Rico, where he was an instructor. In World War II he served with the Military forces in the Pacific in Australia, New Guinea and the Philippine Islands. For five years after the war he was with the Department of Public Health and Welfare in the Panama Canal Zone.

## 4-H Record Book District Contest Closes August 26

By Robert W. Hoernmann  
Asst. County Agent

The 4-H Awards program is designed to give each member participating a sense of fulfillment and achievement. Individual records of demonstrations, leadership, and citizenship help each 4-H member in the awards program and is the basis for recognition.

Scholarships and trips to the 4-H Congress are examples of what a 4-H member may win by entering the awards contest.

Record books that tell a story of the 4-H club members activities must be entered in the District contest by August 26th to compete.

The county agents office has set aside the first week in August to help members prepare their record books. Members 14 years and older may enter the contest. Those under 14 should start preparing their record for the future.

## County Agent Reports

# Webworms Found In Maize, Damage Light

By J. D. Moore, County Agent

The sorghum webworms in maize caused farmers much concern this week as heavy infestation of the worms occurred in late planted maize and threatened what is generally considered Milam county's best 1958 field crop. The sorghum webworm attacks the heads of grain sorghum.

The sluggish caterpillars are somewhat flattened, clothed with spines and hairs and the bodies are greenish with four brown or red longitudinal stripes on the upper part. Eggs causing these worms are deposited on the maize heads by a small gray moth. These eggs hatch in about 4 to 5 days into a small flattened worm.

The worm feeds on the tips of the small shucks enclosing the milky sorghum seed and continues to eat into the seed grain after it is formed. The worms feed from 7 to 10 days (destructive stage) and pupate (inactive stage) for 10 to 14 days in the ground.

Many fields of late maize infested with these worms showed signs of the worms going into the pupae stage this week, therefore, we expect no serious loss of maize crops. Seed heads on late maize will be pretty well advanced during the next two weeks. We do not

expect a second generation of the worms before two or three weeks from now.

### Control Of The Worms

Due to the maize grains high carbohydrate content, DDT is readily absorbed and retained in the mature seed grain. For this reason, pure food and drug regulations prohibits the use of DDT on the grain crops after seed is formed. Toxaphene does not show the residual effect and is recommended for the control of these worms at the rate of 15 to 20 pounds of dust per acre or 2 quarts of liquid as a spray. Mr. H. L. Yager, Maysfield community, reports good control by using Toxaphene dust. A mixture of Toxaphene DDT may be used on maize crops before the seed are formed.

### Cotton

Hot dry weather is good and bad for cotton. It is good from the point of insect control. Insect infestation is not so high during dry hot weather. It is bad for heavily fruited stalks, causing the stalks to "shed" or "drop off" immature squares and bolls. Cotton growing on lighter soils started wilting this week and if dry hot weather continues, much of the fruit will drop off the plants, cutting yields considerably.

### Fewer, Better Farmers

More than half of our young farm men and women leave the farm before they are 25 years old. This means that farm families and farm communities rear, feed, clothe, shelter and educate these young people through their unproductive years. Then, after they complete their education, they head for the city. Today more than twice as many farm-reared adults are living off as on the farms of the United States.

We have the most efficient agriculture in the world. Early in the history of America, 9 working persons out of 10 were in farming. Today only 1 working person out of 10 is in farming. A century ago 1 person in farming provided food and fiber for himself and 3 others. Today 1 farm worker provides for himself and 20 others. Without this great increase in farming efficiency, our great cities and industries would never have developed.

Our cropland base today is about the same as it was in 1920. For every 10 farmers we had then, we have only 6 now. Yet, our people, even though there are 60 million more, have eaten in recent years better and cheaper than ever before.

# Maize Moisture Down, Climate Aids Hay Making

County Agent J. D. Moore reports that dry weather this week has been ideal for hay making and for lowering moisture content of ripening maize.

Corn continues to mature in good condition and grain sorghum harvest started last week with heavy activity expected by late this week. Moore reported better than average grain sorghum yields.

Moore also said that an excellent Milam County watermelon crop was moving on the market, but, he added, prices were too low to compete with the high production cost.

# Wasted !!!

Dollars needlessly spent are a TWO-way waste! (1) You won't have them when you need them for something really important. (2) They contribute to inflationary pressures, help keep prices on the rise - wasting away the purchasing power of dollars you spend in the future. Saved dollars work just the opposite. Deposited in your savings account, they earn extra dollars for you. They help keep inflation under control, help you to get MORE for the dollars you spend later. Thus, you are money ahead TWO ways when you spend wisely, save persistently.

MRS. RONALD HUDSON

## Martha Ann Collins Ronald Hudson Wed

Miss Martha Ann Collins and Mr. William Ronald Hudson exchanged wedding vows in a candlelight ceremony at All Saints Episcopal Church Tuesday at 8 p.m.

The couple's parents are Mr. and Mrs. Albert Collins and Mr. and Mrs. C. W. Hudson.

The Rev. Richard J. Bradshaw officiated at the double ring ceremony and Miss Kay Camp furnished organ music.

Given in marriage by her father, the bride wore an ankle length dress of white chantilly lace over pale pink tulle and satin. The lace bodice was designed with a high neckline and small collar and lace extended over a bouffant skirt of pale pink accordin pleated tulle.

Her shoulder length veil of illusion was held by a crown of seed pearls. She carried a cascade of white carnations on a bound copy of the marriage ceremony used by her mother in her wedding.

Mrs. Albert Tom Uhr was maid of honor. She wore a gown of white lace over pink net and carried a cascade of pink carnations.

Glenn von Rosenberg of Austin served as best man. Ushers were David Hudson of Cameron, H. Wayne Anderson of Austin and James Cooper Mitchan, Bryan.

The bride's parents were hosts to a reception at their home immediately following the ceremony.

Mrs. Collins chose a taupe silk organza dress for her daughter's wedding and Mrs. Hudson wore a dress of navy blue embroidered taffeta.

For a wedding trip through the mid-western states the bride wore a red and black cotton suit with black accessories and a white orchid corsage.

Mrs. Hudson attended the University of Houston for two years and received a Bachelor of Science Degree, with honors, from North Texas State College in Denton.

She is a member of Alpha Delta Pi social sorority, Psi Chi, and Kappa Delta Pi, and she taught in the Odessa Public School system for one semester.

Mr. Hudson received a Bachelor of Science and a Master of Science in Civil Engineering from Texas A&M. He was a distinguished military student, a member of Ross Volunteers, Texas Society of Professional Engineers, American Society of Civil Engineers and Phi Kappa Phi. He served in the U.S. Air Force and was employed by Spencer J. Buchanan and Associates, Bryan. Mr. Hudson will assume a new position as Ass't Research Engineer, AASHO Road Test, National Academy of Science in Ottawa, Illinois.
